Patios

Verandas/Lanais

Porches

Balconies

FEATURES

Retracts vertically

Weighted slidebar

Various mesh and color options

Optional sun and wind sensors

In-wall or hand-held remote controls

BENEFITS

Solar shading

Insect protection

Fresh air ventilation

Lower air conditioning costs

INSTALLATION OPTIONS

Surface mounted

Recessed into walls,
columns and ceiling cavities

ARCHITECTURAL INTEGRATION

We integrate Executive screens into every type of architectural style including wood, brick, stucco, natural stone and concrete.

Recessed in Roman archways

Natural stone and wood

Recessed in columns

Stucco, brick and concrete

CONTROLS AND AUTOMATION

We program your Executive screens to support the way you want your living space to function. Both wall-mounted switches and hand-held remotes are available to lower or retract your screens whenever you choose.

Executive screens can also be programmed to respond to the outdoor conditions of your home. For example, our sun and wind sensors lower the screens when exposed to direct sun and retract the screen into the protective housings during windy conditions.

In addition Executive screens can be integrated into most home automation systems, including Lutron and Crestron.

Customization

FINISHES

Designer Colors

Choose from one of nine designer colors or decorative wood grain finishes.

BRONZE (EXCLUSIVE TO EXECUTIVE SCREENS)

Wood Grain

* Please note that the appearance of the colors illustrated will differ from the actual coated samples or finished articles.

Phantom Screens also offers a wide range of color options including a custom color matching program to blend our screens with any color scheme.

STYLE	WIDTH	HEIGHT
4" housing	26" to 120"	Max 96"
5-1/2" housing	34" to 240"	Max 132"
7-1/8" housing	34" to 300"	Max 192"

MESH
